### ABOUT:

Op. Dr. Necati Arıcı is a specialist with extensive experience in the diagnosis and treatment of both male and female urological diseases. In his clinical practice, he applies modern and safe treatment approaches for kidney and urinary tract stones, kidney tumors and cysts, neurogenic bladder, urological infections, and various urinary tract disorders.

In the field of male urology, he has comprehensive experience in the treatment of sexual dysfunctions (erectile dysfunction, impotence), penile curvature, and prostate diseases, as well as urethral stricture, penile revascularization, male infertility, varicocele, and hydrocele. In female urology, he adopts a patient-centered approach in the treatment of conditions such as cystitis, urinary incontinence, urethral disorders, vesicovaginal fistula, and uterine and bladder prolapse.
